# Structures Specialist Task Force Position Description

### A. Functional Description

The Structures Specialist is responsible for performing the various structural assessments for the task force during incident operations. The Structures Specialist reports directly to the Planning Team Manager.

### **B.** Description of Duties

The Structures Specialist is responsible for the following:

- 1. Assessing the structural condition within the area of task force operations, which includes identifying structure types and specific damage and structural hazards
- 2. Recommending the appropriate type and amount of structural hazard mitigation in order to minimize risks to task force personnel
- 3. Provide input to task force tactical action plans as appropriate
- 4. Cooperating with and assisting other search and rescue resources
- 5. Providing accountability, maintenance, and minor repairs for all issued equipment
- 6. Performing additional tasks or duties as assigned during a mission
- 7. Monitoring assigned structure for condition changes while rescue and recovery operations are proceeding
- 8. Assuming an active role in implementing approved structural hazard mitigation as a designer, inspector, and possibly a supervisor
- 9. Coordinating and communicating the structural related hazard mitigation with US&R IST Structural Unit Leader
- 10. Performing additional tasks or duties as assigned

## C. Position Requirements and Criteria

Individuals who meet the following requirements and criteria will be eligible to become Structures Specialists in the National US&R Response System. The intent of these requirements is to select personnel fully capable of providing competent assessments and advice to task force personnel in the urban disaster environment.

#### D. Required Training

The Structures Specialist shall adhere to the following:

- 1. Meet all Administrative and General training requirements
- 2. Complete the FEMA US&R GPS Awareness Level Course (Course Code: 9G6200)
- 3. Complete the *U.S. Army Corps of Engineers (USACE) Structures Specialist 1 Training* course (Course Code: StS-1)
- 4. Complete the required technical rescue skill sets and additional required rope rescue skills as defined in Appendix A of this Annex
